

Marlo Moreno

Product Designer & Front-End Developer

PROFESSIONAL SUMMARY

Passionate Product Designer and Front-End Developer dedicated to bridging design aesthetics and functional code. Experienced in building clean, intuitive web applications, responsive user interfaces, mobile applications, and seamless brand systems tailored to real user needs.

FEATURED PROJECTS

Gamified Reviewer Design

Mobile App / UI Design

Designed and engineered a mobile application that gamifies the reviewer experience. Integrated interactive learning elements to boost user engagement, motivation, and information retention through modern mobile UI patterns.

Bun Appetit — E-commerce Website

Web Dev / E-commerce

Developed a full-featured e-commerce platform for a bread and pastry shop. Implemented a streamlined, responsive shopping workflow prioritizing ease of navigation, product accessibility, and seamless checkout experience across all devices.

CORE COMPETENCIES

- UI/UX Design: Crafting intuitive interfaces focused on accessibility and user research.
- Responsive Web Dev: Building fluid layouts across desktop, tablet, and mobile viewports.
- E-commerce Solutions: Designing optimized digital storefronts and checkout funnels.
- Version Control: Managing structured code bases using Git and GitHub workflows.
